## *A welcome from Antoni Muldoon* *Lifting the lid on common scams*

Scam Busters is dedicated to helping you avoid becoming a victim of crime. It was set up by me: Antoni Muldoon, a former career criminal who conned

innocent people out of over £100 million. I have just served a lengthy prison sentence and had plenty of time to reflect on the wrong I have done.

*I served my time but I don't think that atoned for my past crimes against my fellow human beings, so now have decided to give something positive back to society. I am on a personal mission to help educate the man - and woman - in the street about the most common scams and how to avoid them. I will be lifting the lid on common as well as complex scams and exposing the methods used by crooks that I used to work alongside, to stop them from conning you.*

## *My books*

### *The Scam-Buster range*

So far I have written and published four books on various different scams and have hopefully covered most of the scams just waiting to bite your bum.

There are two more ready to publish but I am not stopping there. I intend to publish ten books in the Scam-Buster range and then publish a paperback

## *My mission*

**I have had a few warnings, like "you're a dead man" being the most common and that just proves that I am doing something right. So I will not stop:**

I hope my insightful advice is delivered in a no-nonsense style, making it easy for you to read and understand. The aim is to help you look after your finances and protect your cash so that it doesn't end up lining the pockets of fraudsters. My expert knowledge will ensure you know how to spot a scam and avoid getting fleeced. If you are bothered about something, visit the Question and Answer page on my website <http://www.scam-busters.co.uk> and start typing - I will be only too pleased to help.

combining all the books in one big guide.

The paperback will be available "FREE" to any and all of Scam-Busters' members and will be sent out by post to any member that requests it. The only charge will be postage & packing. As I don't ever charge for any of my services and we have no income, I need to cover that cost. In case of hardship, I will even waive that charge.

The Scam-Buster series of books, which is being added to all the time, will guide you through the pitfalls of everything from fake debt to courier fraud. Other subject matter includes a detailed account of the Payment Protection Insurance scandal and how con artists weighed in on victims after a court ruling opened the floodgates to claims against lenders. In, perhaps, one of the most in-depth accounts of the history of the Ponzi scheme, I reveal how fraudsters can steal millions from unsuspecting

investors in a matter of just days.
